

PUREPOD

THE **ULTIMATE** ADAPTABLE POD

# PurePod:

# the ultimate adaptable pod

## The Ulitmate Pod

At PurePod, we set about to design the most adaptable, flexible, and **maintenance free** pod on the market. The ideal showcase for your brand, the entire PurePod can be **digitally printed** - inside and out - and comes ready to attach banners for short/medium/long term branding opportunities

## About Us

At PurePod we set out to develop the most **innovative** and **flexible** pod on the market, that is available either fully built from our UK factory, or as a flat-pack for global delivery.

Our aim was to develop a single pod design that would serve multiple applications at the same time:  
\* branding \* camping / 'glamping' \* medical \* retail \* shelters \* beach huts \* event accommodation \* offices \* point of sale \* and many more

We achieved this by using the latest digital and CNC design and fabrication methods, coupled with a truly innovative PVC substrate that is virtually maintenance free, printable, hygienic, fire resistant, and 100% recyclable.

**PurePod: every pod you would ever need**

## PurePod Benefits

PurePod is manufactured from co-extruded PVC sheet that comprises a closed-cell PVC foam core, sandwiched between two rigid PVC skins that provide both impact and scratch resistance. Furthermore, the substrate was developed for digital printing, offering PurePod the ultimate in customisation and branding opportunities.

- Strong & Durable
- Fire Resistant (Class 1)
- Anti-Static & Anti-Bacterial
- Weather & UV Stability
- Excellent thermal & sound insulation
- Indoor/Outdoor
- Will not rot, warp, de-laminate, cup or twist
- 100% Recyclable
- Lightweight yet rigid
- Fully printable
- Fully-Built, or Flat-Pack options

# PurePod: Applications

Hot or cold, rain or shine, plain or printed: the PurePod provides endless opportunities for revenue generation or problem solving. Whether as a beach hut, or remote medical immunisation shelter, the essential PurePod structure remains the same. What you do with it is just down to your imagination

“PurePod. **Adaptable** and **Versatile** with **Limitless** uses”

PurePod is available in a range of sizes, please consult separate technical sheets for further details. Dimensions shown are of our standard PurePod.
